

## QUARC Benefits

### Unified Clinical Communications

- Help providers track and prioritize patient and organizational needs

### Routing and Escalation

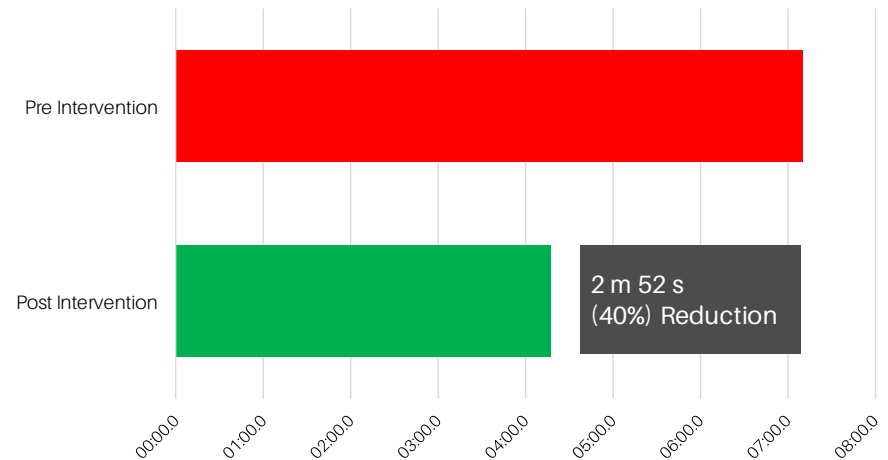

- Speed time it takes to alert providers
- Ensure patient needs are handled within an appropriate time frame

### Reporting and Transcripts

- Enable the ability to hold providers accountable

## Measured Impact

Time From Patient Request to Provider at Bedside

Reduced the incidence of a patient paging the nurse's station multiple times for the same request by **100%**.

- 7/69 vs. 0/40 requests
- 0.93/hour vs. 0.00/ hour
